graph LR; main[main] --> env[environment::getNspecies];
```

environment::getNspecies

A diagram showing a call from the `main` function to the `environment::getNspecies` function. The `main` function is represented by a white box on the right, and the `environment::getNspecies` function is represented by a gray box on the left. A blue arrow points from the `main` box to the `environment::getNspecies` box.
