

environment::incSpeciesProcedure

```
graph LR; A[environment::incSpeciesProcedure] --> B[environment::incNumberOfNewSpecies]; A --> C[environment::incNumberOfSpecies];
```

The diagram illustrates a functional dependency or call relationship. A central box on the left, labeled 'environment::incSpeciesProcedure', has two arrows pointing to boxes on the right. The top arrow points to 'environment::incNumberOfNewSpecies', and the bottom arrow points to 'environment::incNumberOfSpecies'. The central box is shaded gray, while the two target boxes are white with black borders.
