

species::setAmount

```
graph LR; A[species::setAmount] --> B[species::numToConc]
```

A diagram showing a dependency between two code elements. On the left, a gray rectangular box contains the text 'species::setAmount'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. This white box contains the text 'species::numToConc'. Both boxes have a black border.

species::numToConc
